Transfar Positive List: Towards IKEA IOS-MAT-0010, Edition 13

IKEA regularly updates the specification IOS-MAT-0010 about chemical compounds and substances, and IOS-MAT-0010 Edition 13 is the current valid version. This specification describes IKEA bans and restrictions on certain chemical compounds and substances.

In accordance with the general requirements for all materials in section 1 and requirements for textile materials in section 2.3 of IOS-MAT-0010 Edition 13, Transfar Zhilian takes actions to comb our products one by one to create a Positive List (2017) which can fulfill IKEA requirements. The recommendations are based on our experience and on typical application tests performed under standard lab conditions. It may be that these are not always representative of the conditions used by our customers. Users can make your own tests and controls to confirm that the finial textile treated with our chemical meet the requirements.

Hope this brochure will help our partners to choose the attractive quality and eco- friendly textile auxiliaries.
